

Project Management Training and Certification Program

Serbian Competitiveness Project
Booz Allen Hamilton

USAID Competitiveness Project
USAID Projekat za razvoj konkurentnosti

Why Project Management is Important for Serbia

- **World Economic Forum report** on Serbia's competitiveness from 2008 demonstrated **gap in skills** supplied by formal education system and those needed by the private sector
- **Skills-gap analysis** conducted by the Project in 2008 emphasized project management training as one of the key priorities for ICT, Construction and Services sectors
- **Major infrastructure and technology upgrading projects** under way in Serbia and future projects required for EU accession need qualified and skilled Project Managers to ensure success
- To compete in global markets, Serbian firms and employees need **globally recognized standards and certifications**
- Developed countries of similar size (such as Netherlands) have **50 times more** PM professionals than Serbia (40 PMPs vs 2000)

Goals of the PM Training and Certification Program

Educate

- Educate participants in modern project management methods and techniques based on PMI Body of Knowledge

Certify

- Support qualified candidates in obtaining globally recognized PMP or CAPM certifications

Increase Awareness

- About importance of PM for achieving productivity and efficiency gains and improving competitiveness

Build Capacity

- Provide support to local training centres to ensure world-class PM education continues to be available in Serbia

Why PMI Standards?

- Project Management Institute (PMI) was founded in 1969, with a mission to continuously improve the practice and methodology of PM and set global professional standards in this area
 - 420 000 members/300 000 of those certified
 - 250 chapters in 70 countries
- PMI certificates are a confirmation of experience, knowledge and competencies in the area of PM, globally accepted and highly appreciated
 - PMP – Project Management Professional
 - CAPM – Certified Associate in Project Management
- Serbian PMI chapter was founded in 2003, now featuring 90 members and 40 PMPs

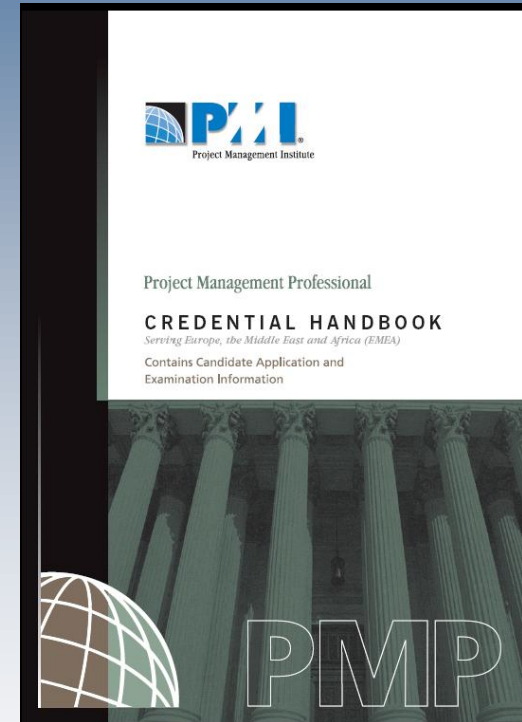

PMP - the World`s Leading PM Credential

- **Requirements**

- University degree
- 36 months of PM experience (60 months if no university degree)
- 35 hours of PM training
- Successfully completed certification exam
- Credential renewal every 3 years – continuing professional education and PM practice required
- CAPM requires 1500 hrs of experinece or 23 hrs of PM training

- **Value and benefits**

- Practical knowledge
- Marketing value to the company
- Membership in the PMI and listing in the online PMP registry

Program Implementation Model

- The Project **partners with 6 leading local training providers** from different regions of Serbia to deliver sponsored PM training
 - Providers were selected through an open tender, from a pool of 20 applicants
 - Quality of curriculum and adherence to PM standards were key criteria
- **Funding is provided to training centres** to allow them to offer discounted training rates for PM courses geared towards PMP certification
- The Project covers **up to 50% of the training fee** per eligible candidate,
 - Maximum amount is 250 EUR per candidate for 35 hours of training.
- The Project will also provide subsidy to candidates who earn accreditation to cover half of the examination and preparation costs
- Local branch of the PMI, the **PMI Yugoslav Chapter**, is one of the main partners - important for ensuring Program sustainability

Program Implementation Milestones

Phase 1: Select Local PM Training Providers

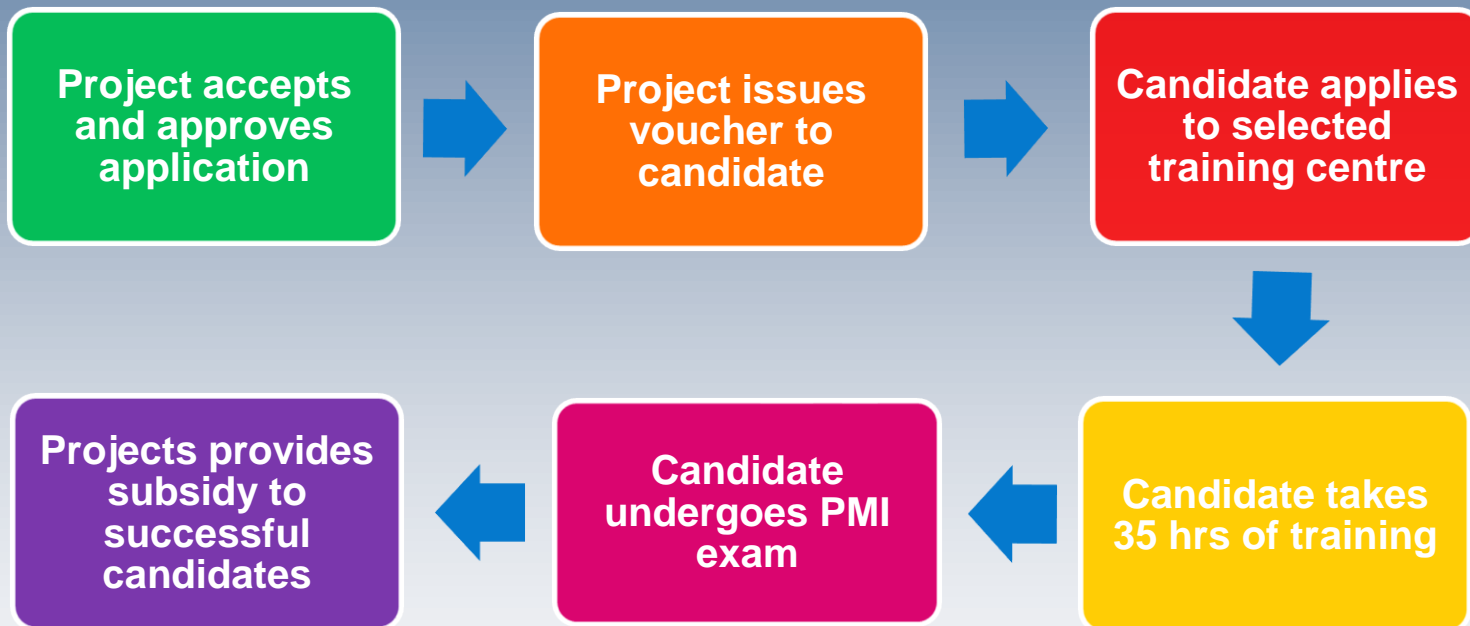

Phase 2: Select candidates and issue vouchers

Phase 3: Monitor delivery of PM Training

Phase 4: Support exam preparation and certification

Phase 5: Build awareness & disseminate results
