

Regional Initiative

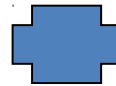

- How did it all begin?

CEED Project funded by USAID promoted SPI related activities, ESI Center Bulgaria and RCI supported it.

ESI@Center Bulgaria

With support from

Competitiveness Enhancement and Enterprise Development (CEED)

Lab Moldova
ESI Eastern Europe

Mission

QLab supports the competitiveness enhancement of the Moldovan ICT sector and promote maturation of the market through active knowledge transfer to contribute to the overall Moldovan economy growth.

Vision

ESI EE Qlab will represent the platform of knowledge and best practice transfer and skills development according to different stakeholders needs.

Focus for the short term development and consideration

- Design and execute the ICT competitiveness development program through:
 - certification of market players;
 - training and certification for professional community and other stakeholders.
- Community building and raising awareness on the role of knowledge transfer and learning from international best practices for the increased economy competitiveness.

Areas of activity

- Certification
- Training
